Bio Huma Netics Inc. Promotes Eldon Hart to Vice President of Sales and Marketing

Chandler, Arizona (April 14, 2009) Bio Huma Netics Inc. is proud to name Mr. Eldon Hart as its new Vice President of Sales and Marketing. In this new office, Eldon becomes part of the Executive Committee and an Officer of the Corporation. Eldon Hart joined Bio Huma Netics Inc. in the fall of 2005 as Director of National Sales and has done an excellent job assisting Bio Huma Netics to increase its domestic US sales and marketing efforts.

Eldon has 36 years experience in the Agricultural Industry in both retail and wholesale positions. Eldon also serves on Salt River Project's governing Council in Arizona.

Bio Huma Netics Inc. was founded in 1973 by scientists who discovered a unique material that improved the ways in which plants absorb nutrients from the soil and through the leaves. This "Micro Humus Technology" forms the foundational ingredients in all of its products. Today Bio Huma Netics Inc. offers an impressive group of technologically advanced solutions designed to increase efficiency and productivity in farming and turf management through its HUMA GRO line of agricultural products and in waste water treatment and other environmental applications through its PROBIOTIC SOLUTIONS line of environmental products.
